Other things that need to be changed or fixed: Change the sound of the hook it is not loud enough and sometimes you can't hear it. So you just have to guess where the enemy is. Make an AMA thing just like Reddit but for developers so we can ask them questions and they will answer them. This will give players some more insight on why stuff isn't in game yet or why stuff is in game. It will also give players a chance to be more involved with the company and make them feel like they are actually doing something. This would also help with bug reports and glitches because then we could ask questions about what's happening and how to fix it.

In December 2021, a lawsuit was filed against Roblox for copyright infringement, in which ROBLOX is accused of copying the entire codebase and game assets of "Infinity: The Quest to the End of the Universe". On multiple occasions, ROBLOX has been hacked into by outside sources. In one of the more recent hacks (2021), hackers took advantage of an exploit to provide themselves with unlimited build tools in games. Users without knowledge of the exploit were forced to leave the game because the tools were infinite and other players could not stop them. This issue was not fixed until two days later. [9] ROBLOX has a rule against using bots (automated scripts that allow players to automatically perform actions) but this rule can be easily bypassed due to the fact that users are able to easily create incredibly powerful bots with simple scripting. The easier ROBLOX makes it for users to create powerful scripts, the more likely they are going to be used in botting and/or spamming games. This is one of the reasons why user-created games like "The Plaza" have been taken down.
