Roblox is a platform for developers to build and create their own games around. Unlike games made in other gaming platforms, Roblox has an online social element that allows users to play together, to communicate with their friends and build communities.

Another thing I like about roblox is how inclusive it is. I have learned that all players are welcome to play in this game, and this includes all ages and genders. This can help people meet new people with similar interests as well as find a way to communicate with others online. One time when I played Roblox, I was able to play a game that was very similar to the popular game fortnite. This is very fun for people who enjoy playing fortnite because they can play a similar game for free! It also gives people an opportunity to try something new and different while still being able to meet new people online.
